

LEGENDS OF LEARNING

Legends of Learning is the most engaging and educational game-based learning environment around — filled with unbelievable math and science experiences.

For additional info and orders, feel free to reach out to Chris using the contact info on the last page of this brochure.

2024 SIAA CODiE Award FINALIST for
Best Educational Game

Awakening

What is Awakening? A multiplayer world filled with extraordinarily fun, curriculum-aligned math and science content. With avatars to level-up, homes to decorate, and beasts to battle, library patrons are highly incentivized to interact with and practice expert-approved math and science concepts. Simply add the *Awakening* icon to your library's desktop computers or tablets and watch youth joyfully play and learn.

“Try out Legends of Learning. It’s an RPG game, and you have to learn your math in order to play....”

“This so good, I can’t stop playing, and it makes me smarter in science.”

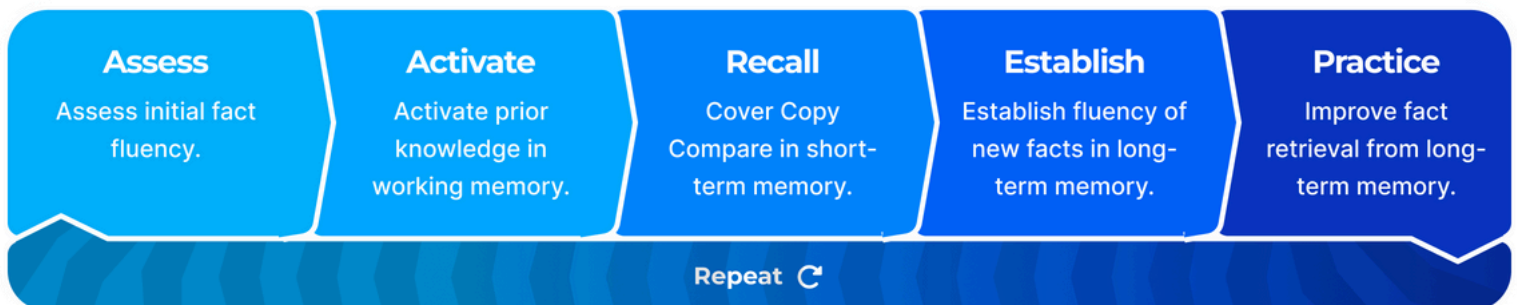

“...honestly almost perfect. With the multi-platforms, battles, shopping, it ties in just the right amount of learning but still fun.”

Math Basecamp

What is Math Basecamp? A research-based program that teaches math fact fluency holistically — covering counting, deriving, mastery, and application of addition & subtraction as well as multiplication & division. *Math Basecamp* empowers homeschooling teachers and tutors with a comprehensive program supported by **best-in-class efficacy** research.

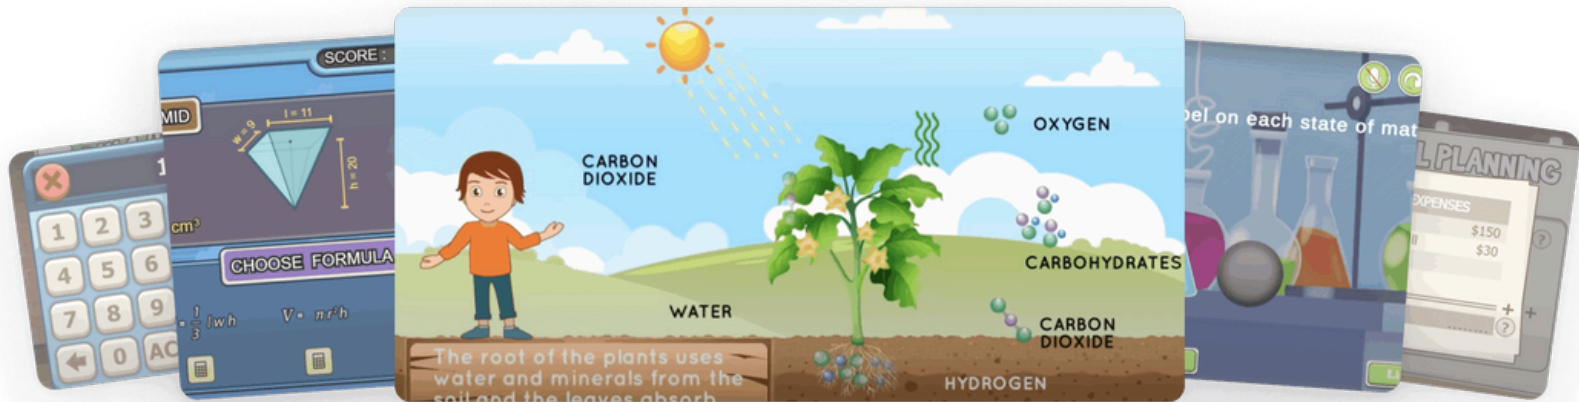

“My students look forward to Math Basecamp every day. I found this program to be very valuable. My students have mastered their math facts and are able to move on to more difficult concepts.”

Christy Peddicord
2nd Grade Teacher
Pershing Elementary School

Learning Universe

What is Learning Universe? A vast collection of 2,000+ NYS standards-aligned games, videos, assessment questions, and multi-modal lesson plans that "supercharge" homeschooling teachers' lessons. With content that naturally scaffolds instruction, patrons will be engaged at their individual level while making it easy to measure and track their progress.

Real Games

Handcrafted by the world's top professional game studios and instructional designers.

Versatility for classroom

Practice and test prep, also for engaging students with direct instruction.

Not drill and kill

Games are unique and instructional. Students never get bored!

Backed by Research

Published research studies prove our games raise test scores for all performers.

"Learning Universe encourages and engages students while continuously having them practice skills. Students have been performing better with the extra practice. They look forward to using this program, which is a game changer!"

Jennifer Nemo
4th Grade Teacher
Discovery STEM Academy
